

dish_count

```
graph TD; A([dish_count]) --> B["(1) .toNumber()"]; B --> C([dish_count]);
```

A flowchart illustrating a data transformation process. It starts with a yellow rounded rectangle labeled 'dish_count'. A downward arrow points to a light green rectangle labeled '(1) .toNumber()'. Another downward arrow points from the green rectangle to a light blue rounded rectangle labeled 'dish_count'.

(1) .toNumber()

dish_count
