

neighbourhood\_group

```
graph TD; A(neighbourhood_group) --> B["(1) removal"]; B --> C(remove-neighbourhood_group);
```

A vertical flowchart with three nodes. The top node is a yellow rounded rectangle labeled 'neighbourhood\_group'. An arrow points down to the middle node, which is a green rectangle labeled '(1) removal'. Another arrow points down from the middle node to the bottom node, which is a grey rounded rectangle labeled 'remove-neighbourhood\_group'.

(1) removal

remove-neighbourhood\_group
